

Music Matters.

The College Entrance Examination Board found that students involved in public school music programs scored 107 points higher on the SAT's than students with no participation.

Early music training dramatically enhances children's abstract reasoning skills and brain functions required for mathematics, science, and engineering.

Music majors are the most likely group of college grads to be admitted to medical school.

High school music students have been shown to hold higher grade point averages (GPA) than non-musicians in the same school.

Music students receive more academic honors and awards than non-music students.

Studying music strengthens students' academic performance.

Lessons are available through the following teachers and are taught in the Siegel High School Band Room.

The number of lessons for each student is determined by the parent/guardian and teacher.

*All Lessons must be paid prior to or immediately after the lesson.

Lesson Prices:

30-minute Lesson = \$20

60-minute Lesson = \$40

Parents and Students should contact the private lesson instructors directly to begin lessons. Limited lesson times are available during band classes (high school only) and after-school around the teacher's schedule.

*Lesson prices may vary slightly by instructor.
